

# Our Process:

*Incorporating Lean Six Sigma thinking, systems, and tools*

## Assess

- Data collection and analysis
- Employee interviews
- Walkthroughs and on-site observations of processes as they occur
- Analysis of process waste and variation
- Local, state, and national peer group analysis
- State and federal monitoring reviews
- Accreditation reviews
- Organizational reviews
- Job/workflow analysis
- Straightforward presentation of findings and practical recommendations for improvement

## Improve

- Enhance employee engagement
- Implement process and organizational improvements
- Better allocate resources
- Eliminate wasteful activities
- Improve communication, focus, and accountability
- Optimize use of technology
- Improve student outcomes
- Reduce risk of litigation

## Sustain

- Define strategy and focus
- Develop performance and process management systems
- Create and monitor key performance indicators
- Standardize best practices across schools and the school system
- Deploy continuous improvement methods
- Maintain state and federal compliance and accreditation

# We help public schools succeed by...

- *Increasing value delivered to students, parents, and community*
- *Fully engaging school employees to achieve*
- *Building a culture of continuous improvement*
